Disco - TPC/BPO	150	23	3	26	17%
Disco - GlobalLink	150	28	2	30	20%
Total Discovery Calls	750	178	36	214	29%

Straight-line pace at this point in the year: 50%.

14 YTD discovery calls are counted in the team total but not yet split into a category above.

Pending reporting — per-AE counts reflect rep submissions received so far (10 of 28 AEs), each named with their disco-call count (calls only, not revenue). Category rollup uses the team tracker (26 YTD = 214; % to goal on the 750 annual target). Per-AE self-reported June totals sum to 35 vs the category rollup's 36 — a couple of tracker cells don't yet sum to the rep's stated total; reconciliation pending as reporting closes.

FROM LEADERSHIP

June report (draft). The standing priorities don't change — they're obligations of each AM/AE/DBD on our team.

Standing obligations

- We MUST originate discovery calls. Each of us. Without discovery, we don't learn, customers don't learn, and we can't present solutions.
- We MUST close deals. With the best people to do so.

Our focus right now

- More discovery calls. Each of you should have 3 legit disco calls on your worst month.
- Drive people to our upcoming 4 events — strategically situated in different locales and time frames to account for diverse audiences.
- Share your wins and failures so we can learn.
